

Dr Bronwyn Boddy

Y9-13 Mathematics

I joined the Cornerstone staff in 2015, after teaching at Queen Elizabeth College since 2009. I am excited to be a part of the growing secondary area of the school in Mathematics and using my skills in the running of the Student Management System, KAMAR.

My favourite moments in teaching are helping students make the connections to become confident and independent learners.

Aside from teaching and caring for my two young daughters, I love being a part of church worship teams on Sundays, and also play the flute in a local orchestra and flute/piano for musical theatre shows.

Bronwyn
