

Mr Paul Jorgensen

Y10 homeroom teacher

Maths, Digital Technology, Geography

I began teaching at Cornerstone Christian School in 2016. Prior to this, I have gained experience at three other high schools in the Manawatu area and one in Wellington. My teaching areas include Mathematics, Digital Technology/Robotics, Geography, Social Studies and Homeroom. I have a real passion for teaching and am committed to journeying with the students as they develop their own passions and identity in Christ. I am excited to be teaching Geography, I have both a BSc in this area and a Diploma in Development. I am also responsible for all things IT at Cornerstone; this provides a satisfying balance to my teaching workload. I count it an absolute privilege to be involved in Christian education and to serve the wider community as the school continues to grow.

Paul
